1. Discuss new subcommittee roles and objectives, understand the purpose of the group
2. Prioritization of roles and objectives
3. Develop understanding of subcommittee limitations
4. Identify ways the group can support provider transformation in reporting quality
5. Identify function subcommittee might assume in promoting payer consistency
6. Discussion of subcommittee charter

Note from Subcommittee Chair, Dr. Griffin--

Today, I would like to discuss where we are now, where we would like to go. There are a few issues that we need to work out with the vendor - establishing consistency in the roll-out of benchmark standards between payers and providers in relation to the way that data is transmitted to the vendor is critical. AND there are other issues we need to flesh out a bit, other ways this group can function to serve patients, providers and payers. I would like to use today to draw out some of these ways we can help, and clarify out limitations as well.
